

TITAN SWING AWAY MATTEBOX

Light. Strong. Versatile.

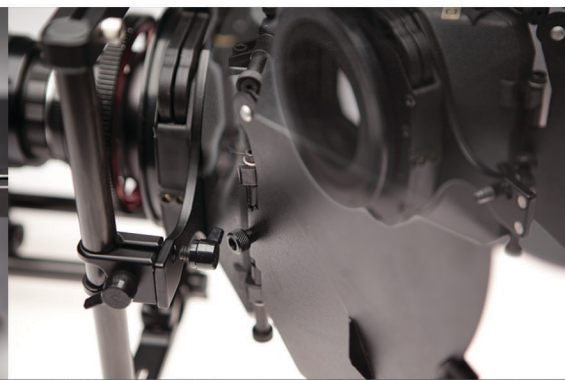

The Titan Swing-Away Mattebox from Cinevate is the ultimate mattebox solution. The frame is constructed entirely of CNC machined aluminum and carbon-fibre, includes three shoe mounts as well as mounting points for Cinevate's 15mm rails blocks, and is strong enough to be used as a handle to carry a rig up to 40lbs. The filter box has two rotating 4x4 frames, which can be adjusted for ND grad or polarizer filters. We should also mention that it's the **first fully height-adjustable swing-away mattebox in the world.**

Features:

- CNC machined, powder coated aluminum with carbon fiber uprights
- Height adjustable
- Two size rails block allows you to alternate between 15mm or 19mm rails
- Safety locking feature for a fixed door closure
- Two easy-access, adjustable 4x4 filter frames

Available:

- Spare 4x4 frames

The Titan Swing-Away Mattebox by Cinevate is the stuff of legend. This patent-pending design is the first of its kind, allowing you to adjust it to suit any camera set-up. That means you can achieve superior light-management while shooting in the style that you prefer. The Titan gives you all the control you need to create something legendary.

Show the World.
