

## UNO DSLR RIG

### Versatile. Lightweight. Tough.

Based on a 15mm solid carbon rod chassis, Uno's unique link system allows a nearly limitless series of configurations customizable both to your shooting style as well as a large array of camera platforms.

#### Features:

- CNC machined aluminum components
- 30cm (11.8") solid carbon rod chassis
- 360 degree flexibility on all parts

#### Includes:

- 30cm (11.8") carbon chassis (15mm)
- 1 vari-mount Uno grip
- Tripod mount
- Base plate system
- 1 vari-mount shoulder stock

#### Available:

- Durus Follow Focus
- Additional hand grips
- Shoe and monitor mounts
- Shoulder pad

Uno was inspired by interactions between Cinevate's CEO Dennis Wood, still photographers and filmmakers.

Uno's "Heavy Support" configuration provides a second link to support the base plate and is designed to support heavier cameras.

**SHOW THE WORLD.**
